Subject: Meadowlands Service Qualification

Dear Mr. Darcy:

Per our recent conversations, it is understood that Engineers on the Hoboken Extra List will be required to qualify on the new service the Carrier will be operating for the New Jersey Sports and Exhibition Authority. Engineers holding regular assignments on the Hoboken Division will be provided the option to obtain the qualifications for the new service. Qualifying will consist of signing for and accepting a DVD depicting the approximately 2 mile territory on which service will be operated. Any Engineer mentioned above that qualifies for said service will be compensated a total of one (1) hour at the straight time rate for the time spent reviewing the required DVD. Additionally, on the Engineer's first run of equipment on this service, they will be accompanied by a Qualified Engineer that has previously operated on the territory.

If the forgoing properly reflects our understanding, please indicate by signing below.

Sincerely,

William B. Murphy
Deputy General Manager
Labor Relations/ Administration

I Concur:

Richard Darcy
General Chairman- BLE
